I am a full stack developer with about four years of professional experience, during which I've worked primarly on enterprise applications' backends, as well as various front ends – mostly React and Universal Windows Platform.

EXPERIENCE

.NET DEVELOPER / GLOWNEXUS SA
2018–

– Currently, I'm the single backend and devops engineer in a team, building an ASP.NET Core (w/ EF Core), React app. I get to use Azure resources such as App Services, Cognitive Services, Function Apps and Azure Search.
– Previously I worked on a project with a classic ASP.NET (w/ EF 6) backend, UWP (mobile) frontend. I acted as the deputy to the Technical Team Lead in the team of 5-9 devs, within the SCRUM framework.

Completed the Microsoft AZ-203, Developing Solutions for Microsoft Azure exam, earning the Azure Developer Associate certification.

Awarded the Exceeding Expectations Award for my efforts in delivering a product within an exceptionally volatile environment.

.NET DEVELOPER / ATOS CONSULTING
2017–18, 19 MONTHS

Acted as a Module Owner (accountable dev for major change requests regarding selected modules of a massive enterprise application), using Web API & WCF backends, UWP & WinForms frontends in a team of 8-10 devs.

Awarded the Delivery Excellence Award for ramping up quickly on technologies unused by the company before, helping the team tackle the challenge.

JUNIOR .NET DEVELOPER / ATOS CONSULTING
2016–17, 10 MONTHS

Worked on a project with ASP.NET and WCF backend, with a WinForms frontend.

EDUCATION

BSC IN BUSINESS IT / CORVINUS UNIVERSITY OF BUDAPEST

Joined a student organization supporting foreign exchange students.

SKILLS

C#, ASP.NET Core, Entity Framework

Microsoft Azure

React

Redux

.NET Framework

T-SQL/MS SQL

GraphQL, Apollo

Containerization (Docker, Kubernetes)

CSS, SASS (BEM methodology)

JavaScript (including ES6+)
